COMPANY PROFILE

PROFESSIONAL IN WELDING EQUIPMENT &
INDUSTRIAL SUPPLIES

FOUNDER

MARK KHOMBA

ABOUT THE COMPANY

Founded in 2019, we have earned a reputation as a leader, thanks in part to a number of strategic alliances and sourcing agreements, which enables us to supply niche markets in the industrial sector such as, Engineering, Fabrication, Construction Shipyard, Government entities and motor industries.

We aim to grow to a large geographical footprint so that we are able to provide opportunity for national key chain customers to link a service orientated partner in supply of their consumables requirements.

WHAT DO WE DO?

Having entered into the Welding industry in 2019, Khomba Holdings has expanded its product range. We supply welding machines. We specialize in all commercial, residential and industrial Welding machines. We supply Water or Air cooled Machines and Inverter Machines.

We are also supplying quality reliable long-lasting Mig Torches and consumables. You have an option of a heavy-duty Mig torch depending on your application.

We offer different types of MB range Mig torches and its consumables. Lightweight welding torches, reliable push-pull torches, efficient fume extraction torches, torches with quick change torch neck, with super cool consumables.

SPRAY PRODUCTS

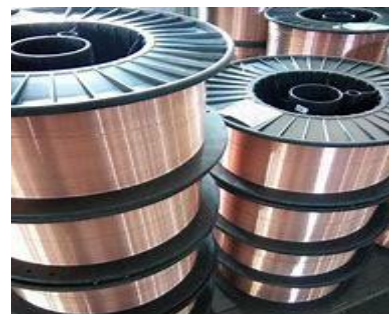

Anti-spatter Sprays & Liquids. Welding spatter protection for every welding application. No matter the application, whether manual or robotic, these anti-spatter compounds give a reliable and consistent coating of anti-spatter for protection your weld nozzles and consumables.

Our anti-spatter comes in a variety of forms from ceramic to surfactant to water-based to oil-based to meet your preference and needs.

CONSUMABLES

We offer quality consumables from your tips, gas diffuser, liners, shroud, wire, cutting discs and a lot of protective equipment.

We aim to supply you with good quality welding products
